...everyone can handle
the web with us!

* Monitoring of the "Basic" website includes once a month a check of the website content, a check of the website functionality and a basic monthly report, including traffic statistics, for the website within a maximum of 10 pages. Management for larger web presentations can be set individually according to customer needs. Prices are without VAT 21%.

** Individual monitoring of the website is based on the specific needs of the customer. The individual flat rate can include, for example, updating the content of websites, management of e-mail boxes, checking the up-to-dateness of content, client technical support, consulting activities, detailed monthly statistics, management of PPC campaigns, marketing strategies, banner campaigns, etc.
